June 1944

We, the Democratic party, have been a huge hit with their policies so far.

I am truly sorry about this event. I understand that you lost your brother and your father.

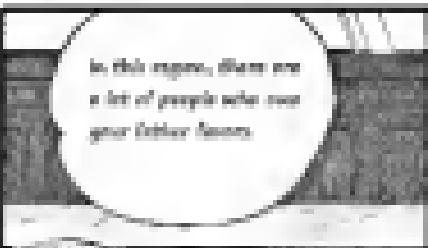

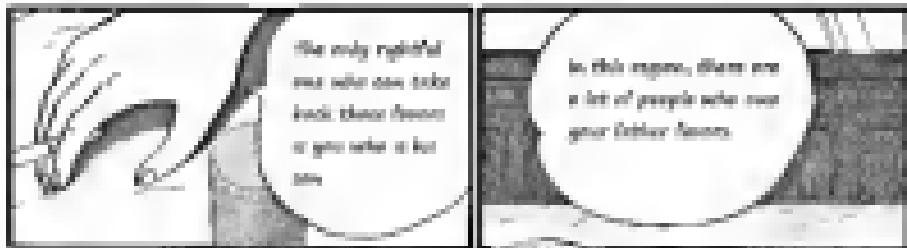

As you probably know, we had a hard time winning in the elections in the last election.

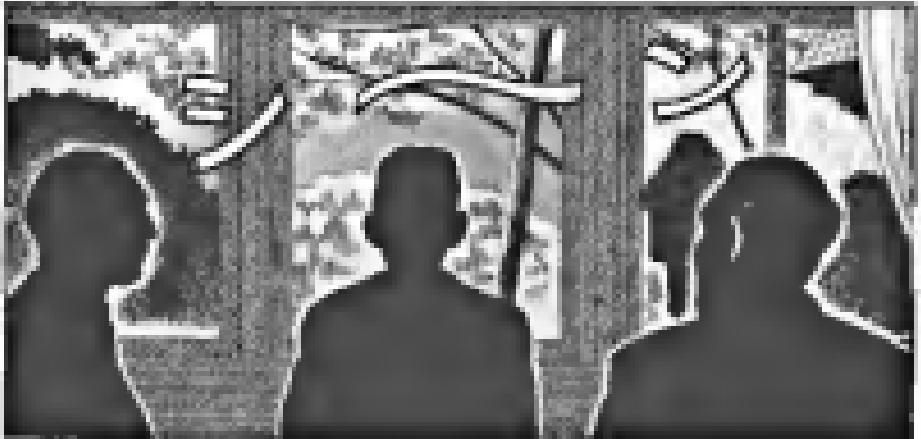

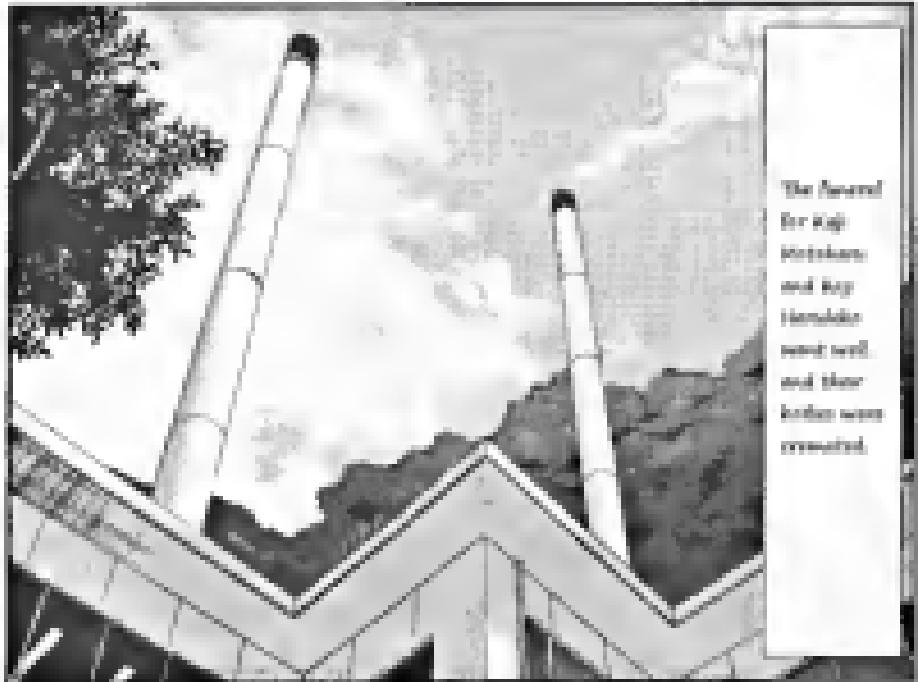

We didn't think the Liberal party would take a lead in this election.

What we should
try to explore is a
positive balance
between advancements
and setbacks.

Remember it well
described that
I am not relying
merely on the solution.
Because besides
advancement.

After all, in fact, human's
biggest concern

A politician should
always seek to make
as many people as
possible in any given
area.
That is perhaps
the ultimate task
for any politician.

Not just for people of Japan,
not just for people of Nagoya,
and of course it is not happiness
of L. Ray Mitchell.

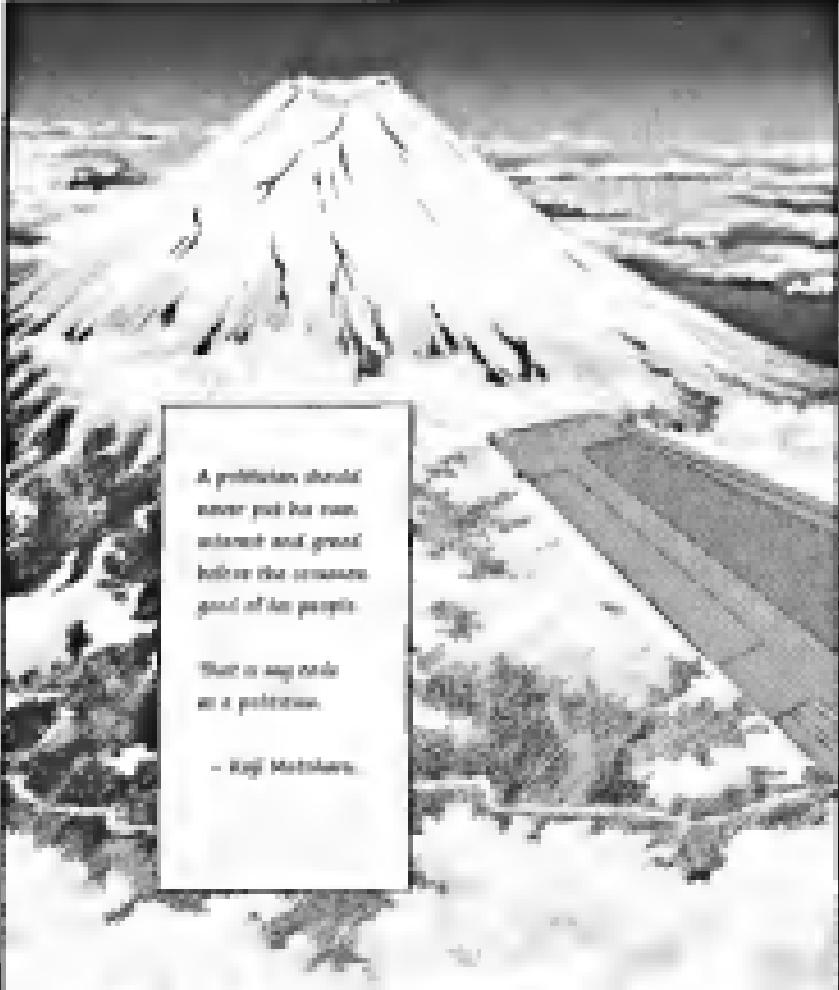

Also, what a politician
should aim for is
happiness of people.
In this case, I do not
mean "the people" as
the people of that country
but people of the world.

Policemen are those who should work towards a common goal rather than trying to achieve their own interest and greed

Remembering that in forward-looking as well as static forms will only bring mediocrity.

A politician should never put his own interest and greed before the common good of the people.

This is my code as a politician.

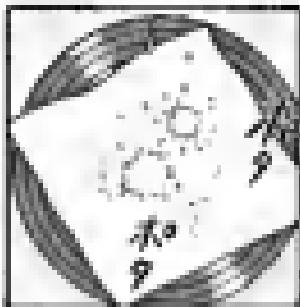

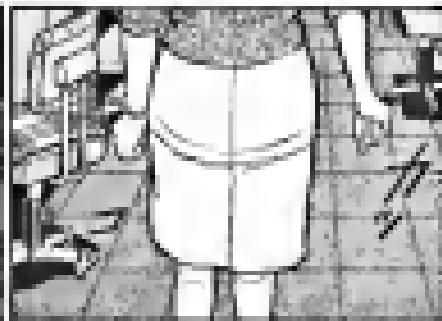

- Raji Matsukura.

議その7

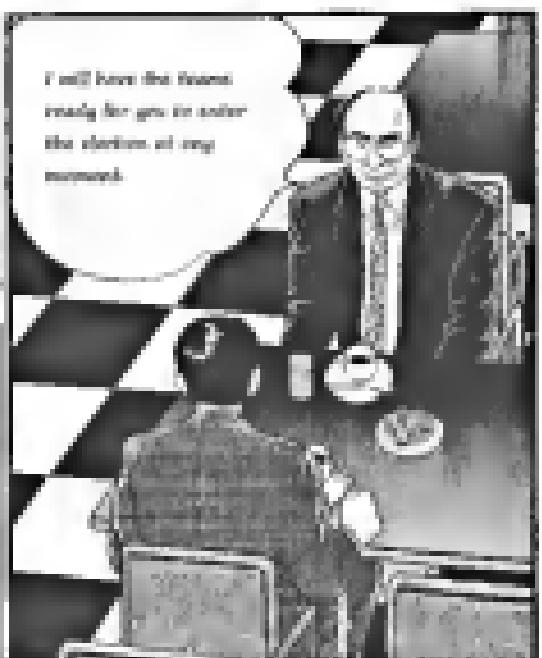

I realize that it is a difficult decision but I urge you to quit your current career taking real action in Rajasthani art now!

If we are going to do this, we need to start now.

I agree

I will have the train ready for you to enter the station at any moment.

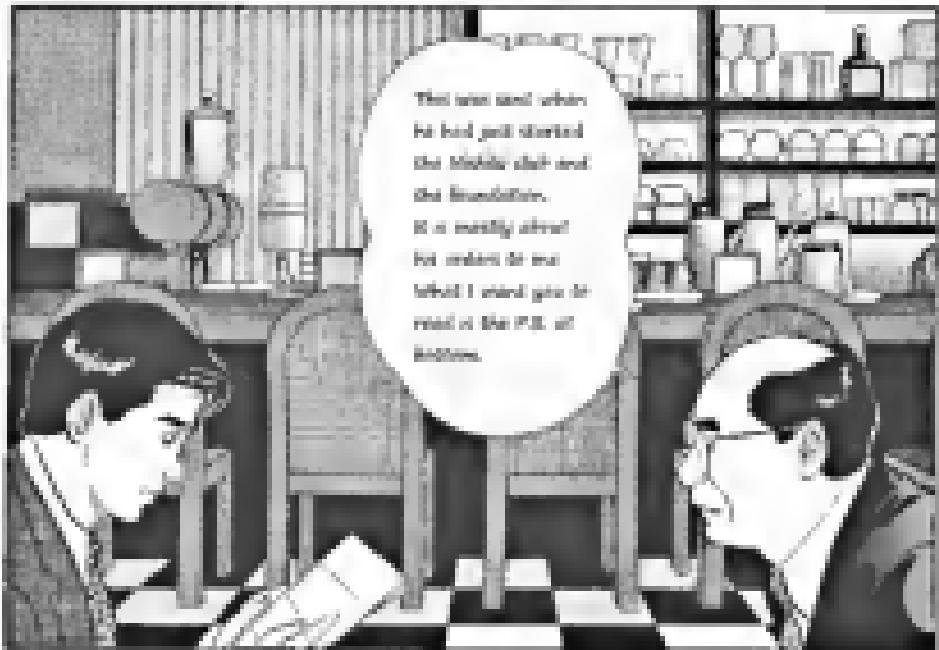

I've brought you something

A letter from your father to me 20 years ago

You never showed
me better for anyone.
You are the best
man for me.

This was just when
he had just started
the Shoko Club and
the Foundation.
It is mostly about
the culture of tea
which I used give to
read in the P.S. of
Rishō.

I was informed that my
second son, Ryosuke, has
successfully entered Tokyo
University.
I must say I am much more
pleased to hear the news,
even more than when I heard
my first son entered the same
university.

I never expected
him to enter
Tokyo university

On weekend,
Ryosuke was
always out playing
and never really
did study

His grades
were always
in the last
range.

It is because
compared to his
older brother
Kensuke, he was
a much less
intelligent child.
I am not bragging
but Kensuke's
grades had
consistently stayed
in the lowest quartile

Even though he is
my son, I feel it
pretty unusual

When he became
a senior in high
school, he started to
study all of it suddenly.
And then he was
accepted by Tokyo
university. Just like
that, it happened.

Kensuke is meant to
be an officer whose
primary task is
connected to protecting
And I believe Ryosuke
is meant to be
a politician.

I do not know
what kind of path
my son will walk,
but from my
observation, —

I would never
forget what he
taught me about
myself.
Remembering
what he taught
me is always
a strong step
forward.
And he succeeded
at that — that
is what is
perpetuating me.

If I don't
remember
what he
taught me
about myself...

I am not a criminal
right now.
I can't afford to
change or change
to become a
politician.

I need
your honest
opinion.

Do you know what the next
think of politicians?

They tend to think that all
politicians can do is help
deciding making rules and
decisions.

You are saying that you are
going to ignore majority of
voters?

Are you not
all your mind?
No one will
vote for you.

They want see the bigger
picture and act
accordingly!

I notice that, that not
one have smaller
task in regional
concerns. We are
talking about politicians
here who will solve
the problems!

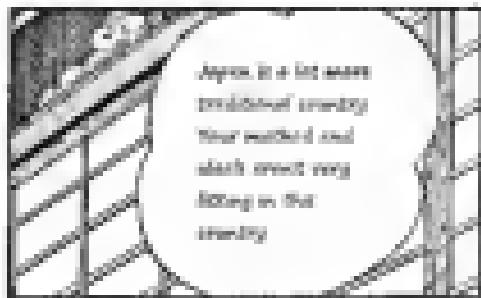

If you are going to fail,
you should at least try at

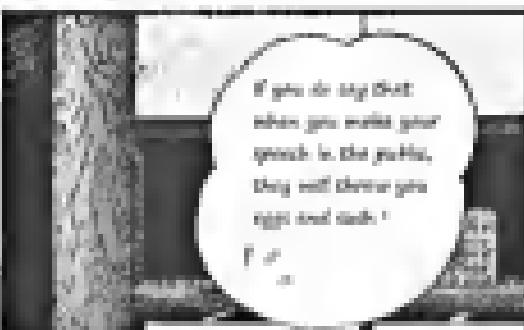

You, what you are saying is
correct. However, without
any little bit that, for them
concerns and politicians
are the same fail.

I don't care
if I am going
to do that.
I will prove
my ideals

Regulation
is one of
the prime
regulations
for agriculture
products.

Chairman, Japanese are
very old-fashioned when
it comes to politics and such.
What I am going to say and
do will be the first in our
history.

That's why
I am going
to try

If you are
going to do this,
we will support
you.

Then,
it would
be a big
hit.

I realize that my
method and what
should happen,
but it is mostly
myself.

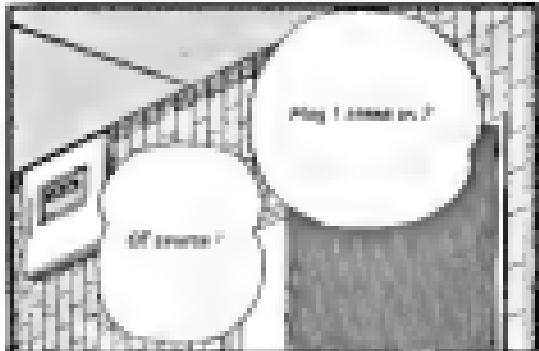

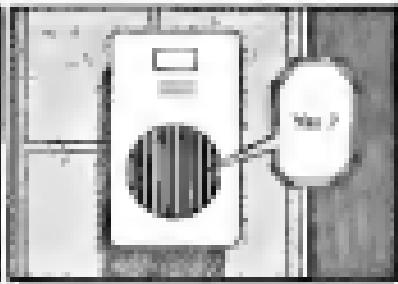

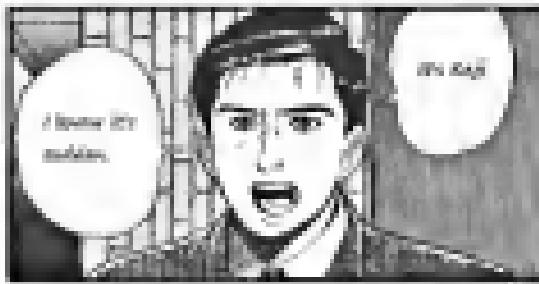

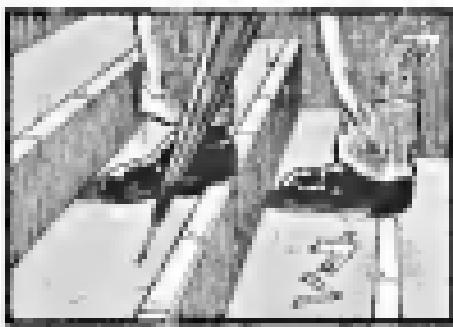

If the election
is coming this
fall, come to
me if I am
going to do this,
I have to
decide early.

You may

To be honest
I am jealous that you
are able to enter the
ministry. It is something
I have only dreamt of.

In the end,
the choice
is yours.
